Weber House, 2003

### **Historic Overview:**

The Weber house was built in the Georgian Revival style in 1901. The architect is unknown. The building is constructed in red brick with gray stone trim and a slate roof. The outside corners and window surrounds are accented with limestone quoins. A predominant feature is a two-story, semi-circular extended portico that dominates the façade. The portico is adorned with a dentiled cornice and Ionic columns.

The original owner of the house, Joseph F. Weber, was president of J. F. Weber and Company a lumber and millwork firm.<sup>1</sup>
